Financial Arrangement Policy

The established financial policy of this office is that payment in full is due at time of service. We accept payment in the form of cash, check, money order, Debit, and debit ar. Please read the following explanation of our financial arrangements policy, and select the one that would be easiest and most appropriate for you.

Patients without insurance

If you do not have insurance, we request you pay in full at the time of service. We will charge \$50 if you do not call within 24 hours of your scheduled appointment. If an acupuncture package is purchased, (five acupuncture sessions for the price of four) it is non-refundable.

Patients with insurance

If you have qualifying insurance, we will prepare and file your insurance claims for you. Patients who carry health insurance should remember that professional services are rendered and charged to the patient and not the insurance companies. You are responsible for all charges regardless of whether or not they are covered by insurance. We will wait up to Ninety days for insurers to pay their portion of the claim. Under this arrangement you are responsible for paying a co-pay and/or any non-covered portions and any deductible that you may have to satisfy at the time the services are rendered. If statements are not fully paid within ninety days after their dates, you are responsible to pay Dr. Chamein Clark-Witter any and all reasonable costs incurred. You are required to present a valid Insurance card for us to make a photocopy of along with a valid photo ID for us to bill your insurance.

Our practice is dedicated to providing chiropractic, and health care to as many patients as possible. Our charges are well within the range considered "usual and customary" by most insurance carriers; however, some insurance companies have arbitrarily determined their own "schedule of payment," which may be more or less than our regular fees. Please note that some services may be considered as non-covered under some policy limitations

We charge \$50 if you do not call within 24 hours of your scheduled appointment. For no show appointments, the charge will go directly to you, not your insurance.

Please check one of the following payment plans

With Insurance

- 1. I prefer to pay on each visit and bill my insurance carrier myself
- 2. I prefer to have you bill my insurance company and I will pay my co-pay on each visit.

Without Insurance

- 1. I prefer to pay the office in full on each visit.

I have read, understand, and agree to the above financial arrangement

Consent To Treatment

Health care providers are required to advise patients of the nature of the treatment to be provided, the risks and benefits of the treatment, and any alternatives to the treatment.

There are some risks that may be associated with treatment, in particular you should note:

- I. While rare, some patients have experienced rib fractures or muscle and ligament sprains or strains following treatment.
- II. There have been very rare reported cases of disc injuries following cervical and lumbar spinal adjustments although no scientific study has ever demonstrated such injuries are caused, or may be caused, by spinal or soft tissue manipulation and treatment.
- III. There have been reported cases of injury to a vertebral artery following osseous spinal manipulation. Vertebral artery injuries have been known to cause a stroke, sometimes with serious neurological impairment, and may, on rare occasion, result in paralysis or death. The possibility of such injuries resulting from cervical spine manipulation is extremely rare.

Osseous and soft tissue manipulation have been the subject of government reports and multi-disciplinary studies conducted over many years and have demonstrated it to be highly effective treatment of spinal conditions including general pain and loss of mobility, headaches, and/or other related symptoms. Musculoskeletal care contributes to your overall wellbeing. *The risk of injuries or complications from treatment is substantially lower than that associated with many medical or other treatments, medications, and procedures given for the same symptoms.*

I acknowledge I have discussed the following with my healthcare provider:

The condition that the treatment is to address

The nature of the treatment

The risks and benefits of the treatment

Any/All alternatives to that treatment

I have had the opportunity to ask and receive answers regarding the treatment.

I consent to the treatments offered or recommended to me by my healthcare provider, including osseous and soft tissue manipulation. I intend this consent to apply to all my present and future care with Dr. Chamein Clark-Witter DC FIAMA DIPL.A.C.
